

WWMPCO
World Wide Imports co

Compactadora

Motor Marca

SIEMENS

Main Features:

- A: Milling, mixture and staining can be processed all in one
- B: The machine takes up little area of land
- C: It is characterized by simple structure and ease of operation
- D: The interstitial of the blade can be adjusted with convenience of replacing.
- E: It is characterized by high efficient in production and low consumption(1 ton of daily production ,and 200 degrees of electricity consumption).
- F: Granulate at lower temperature, do not damage molecular structure of materials basically, and do not damage physical performance.

Main Technical Variables:

Model	HQ-150
Capacity of Barrel	150L
Output Capacity	60-80kg/h
Main Motor Power	22kw
Water Adding Device	125w
Heating Power	1.5kw
Rotary Speed of Main Shaft	660r/min
Overall Dimensions	1500×700×1400mm
